-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

Art Unit: 1725

1. Applicant in response to the restriction requirement elected Group I, claims 1-21 of the invention without traverse. Accordingly, claim 22 stands withdrawn from further consideration. The restriction requirement is hereby made Final.
2. The specification is objected to under 35 USC 1<sup>st</sup> paragraph in that it is not written in an idiomatic expression. For example, throughout the specification it refers "mold" as "mold flask", "cylinder or sleeve" as "die set". Further, in page 8, lines 21 and 23, "PHI" shall be "mm". Applicant is required to correct these and other errors which might occur throughout the specification.
3. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The reasons for the rejection of these claims are the same as the objection to the specification supra. Further, in claim 3, it is not clear what different between the "cooling pipeline" and the "salt pipeline" is. Isn't it the "cooling pipeline" includes the "salt pipeline". In claims 10-19, the recited "step (3)" etc. shall be "step (c)" etc. In claims 11 and 12, "PHI" shall be "mm". In claim 15, "during" shall be "and holding for a time period of". In claim 21, "silicon mold" shall be "silicon rubber mold".

4. Claim 3 contains the trademark/trade name Zamak. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope.

Art Unit: 1725

is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a Zn alloyed pipeline and, accordingly, the identification/description is indefinite.

5. Claims 1-21 contain an allowable subject matter and will be allowed upon the objection to the specification and the rejection to the claim under 35 USC 112 supra are overcome.

6. The patents to Wang et al. and Vining et al. are cited to show the state of the art.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuang Y. Lin whose telephone number is 571-272-1179. The examiner can normally be reached on Monday-Friday, 10:00-6:30,.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas X. Dunn can be reached on 571-272-1171. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
